Im not ready, it's not my time Your words are shit, Im doing just fine. You try to prove me wrong, don't waste your breath! Because I'll be making noise, until my death. I'd rather burn your book of rules then join the masses of brain dead fools. I will defy (3X) you'll never change my mind. And so the story goes, another joins the flock. it's the easy way out, it isn't such a shock. Conformist sheep, gather around and criticize the life Ive found. When will you realize, I'll never play the game. You don't play fair, you're all the same. I will defy you'll never change my mind Conformist sheep, gather around and criticize the life Ive found. When will you realize, I'll never play the game. You don't play fair, you're all the same.
