Cast me aside, Im not the picture you want on your wall.
But where it counts the most, I know for sure, Ive given
it my all. My heart creates this music, Im held back by
whats outside. Im not at all what you pictured, once
again Ill be cast aside I was there, I saw what you did.
Youre not grasping whats being said. You dont belong,
dont want your gratitude, Judging people with that
attitude. Not even thinking what is right, Youll never
see me in a positive light. Wont get caught up in your
game. I dont need that kind of fame. Cast me aside!
(4X) I was there, I saw what you did. Youre not grasping
whats being said. You dont belong, dont want your
gratitude, Judging people with that attitude
