[Killah Priest] It's amazin' how I just won't stop The  
heathens come wit their plots Mixtapes I drop, then  
another one I give it away for free cuz it comes from  
me Fuck it, we got more in stock As space expands,  
heaven and hell expands The more souls, the more it  
grows I created my plan, I'ma kill the devil Friday  
evenin' Come back wit all his horns for souvenirs  
Murder all his demons, his followers prepare for war  
I'm comin' wit this word, bullets and more The game  
don't wanna recognize me no more Fine, I'll pull a pluck  
from the wall Puffy and those niggas gettin' paid off I  
tried being humble, but now I'm gon' AWOL These stars  
are controlled by a dark force They hate the light of  
Christ That's why I'm not in the page of the Source  
Wassup Nas? Join the team, fight against the evil  
regime His soul seems torn; don't know who to put on  
Well come wit us, and join wit the side of the Elohim  
Wassup Ghost? I hear your soul I know you wanna put  
your hands around the devil's throat Two year plan, I'll  
bring back the Son of Man
