(Intro) Stop playing man, fo'real man What about that rhyme Killah Priest.... I told you son, there was never a Killah Priest There was never 'A View From Masada', there was never a 'Priesthood' There was never nobody that kick lyrics like that son Fo'real, y'all niggas' is buggin' Fo'real, I'm serious son, there was never a Killah Priest [Killah Priest] He never existed; he was part of RZA's experiment He was only in their imagination Part of RZA and GZA's conversation There was never an album called 'Heavy Mental' That was only in y'all mental Last song, you think somebody can make somethin' that strong? That was didgeridoo instrumental, now hold on I'ma show you why that nigga never exist And why this cat never spit Killah Priest the idea came from early Egypt I'm talkin' way back on the other side of the map Egypt was really called Mizraim Name came from Noah's eldest son, his name was Ham They told stories, relaxin' their thoughts As their brain hovers New York That third eye glide with views like a Hawk Notice Hawk - Falcon, same thing These was practiced by their Kings Then Killah Priest came from B.C. That started wit the Sheikhs They had Killah's that would teach Noticed how they spelled Killah K I L L A H, take the A, L L, add another A in the H That's Allah; you see where I'm goin' God And Priest was also in Egypt See, don't take everything literally, peep it Yo, flamin' arrows aimin' at Pharaohs' inhabitation Racin' like a sparrow thru a narrow population Keyword: 'Pharaoh', they left codes back then So their name would last on the globe, when it spins He said: "Pharaoh, of the big apple" Lettin' you know, another code I judge wisely between two pillars of ivory Why two pillars? Look that's Greeks takin' from the Egyptians again my nigga See Killah Priest never died because Killah Priest never was alive Notice how other rappers never talk about him Even in his own clique, cuz he's just a clone kid They say he use to talk to this girl from Roc-A-Fella (Amil) Well, why they never drop nothin' together They say she had a baby by him, but where's that? I'm waitin' Black, look the Sunz of Man album cover 'Saviorz Day' Where he at? Look man, I'm

just kickin' facts He don't be wit no Wu-Tang Maybe I'll sit back and let you explain They said GZA discovered I checked GZA's latest album, Priest ain't on none of them Basic Instruction Before Leaving Earth (B.I.B.L.E.) That's GZA's song, PROVE ME WRONG!?! He was never a Gravedigga Killah Priest was made up by RZA son (Outro) Word, shit, fo'real son? Wait a min; hold on, that shit is crazy son Wait a min; hold on, what about him and Canibus battlin'? But nobody else was there, just him and Canibus Fo'real? Yo son I'm tryin' to tell you that was Canibus rhyme Killah Priest was never there, son they make all that shit up Why the Horsemen never drop?
