lord of the wind Fallen angels, black abyss, bought
most of his friends His coffins full of abortions Outside
the black temple, dragons were swarmin' Enormous,
abomination came wit the children of Cain Damnation
and hell join hands Black rain that anoints to his blood
clan Blasphemous near his casket weepin' Comin' in
multitude of demons, lost souls Followed by a mass of
heathens Complainin', crows were screamin' Then

curse, talkin' From the direful of abyss His wife leans
over kisses his hard dead lips The room smells like
burnt sofa Above his body, a tall gothic sculpture
Scriptures were written by Hitler Stalin, Darwin and Idi

read the devil's eulogy I read the devil's eulogy No
foolery, we hung up his jewelry This is it, the
