(Priest talking)

One more time, uh, yeah

Magnetic, uh, Priesthood

Godz Wrath (Behind the Stained Glass)

[Killah Priest]

Let the Earth bring forth grass

The herb mule sees the fruit fall from trees

Working daily are the honey bees

Then all kinds came up abundantly

And everybody in the jungle free

But times change, now is guns that squeeze

Crime family smuggle ki's

USA is a large company ran by quiet societies

Privately the hood diaries of Brooklyn killers in the '80s

Harlem was heaven, project legends

Supreme had Queens; the Bronx was repping

Then the west Coast let go

With gang-banging, the game changed then

With "Batman" and Raymond Washington

The streets are watched with gun

No cops will come, what block you from?

(Chorus) Priest

Our ancestors brought from Africa on slave ships

Now return in the air with first class trips

Passenger six, window seat, relax I'm viewing the fish

The trees, the seas are blue like the jewels on my fist

From the Islands of Costa Rica we share that same light

Children play with marbles of gold, return the plight

We share the same light; we share that same life

[Killah Priest]

We were enslaved 'cause our color

Look in the Bible page and you'll discover

The real reason why we suffered

We fit the prophecies and Deuteronomy

They took the true Jewish colonies

and brought 'em to a new economy

Through Willie Lynchings philosophies and brutality

And through poverty we lost a new moralogy

Once in tuned with the galaxies
Now we only see user weed astrology
We took up a blunt culture
Lost memories, last night fights from being hung-over
Young soldiers become sober
DEUTERONOMY 28, VERSE 28 will set the record
straight
It states: "that he will struck us with madness and
blindness
Confusion, no power or refinement, no movement"
Now take a look around at our environment
Drugs supplying, gun firing
While the president is hiding
And we admire them, white police patrol there
But they don't leave near
Said they don't care who gets killed here
Or confine to a wheelchair
Our ignorance made them billionaires
VERSE 29 says: "we will be exploited on our long
voyage
Unemployment for their enjoyment
No longer called the anointed"
But COONS niggas and SPOOKS
From BOJANGLES, JIGGA to SNOOP
These Deuteronomic Codes exposed
I'll dishonor and rose
VERSE 30: "I will sin you and your king
to a nation that neither you or your fathers have known"
THE VALLEY OF DRY BONES

(Chorus) Priest
