No respect at all for human life  
Population of scum and shit.  
Slaughter in mind for your rancid kind.  
Global murder cleansing, let's fucking go.

I would love to see you bleed and scream.  
You majestic world leaders.  
Let's hear your views on a better life,  
With a shotgun down your fucking throat.

Global murder cleansing, let's go.  
Global murder cleansing, let's go.  
Global murder cleansing, let's go.  
Global murder cleansing, let's go.

Go!

Fuck you and your I'll decisions.  
Silence you with knife incisions.

Global murder cleansing, let's go.  
Global murder cleansing, let's go.  
Global murder cleansing, let's go.  
Global murder cleansing, let's go.

From the heights of power you will all fall.  
Kill you all and fuck you all.  
From the heights of power you will all fall.  
Kill you all and fuck you all.  
Fuck you and your I'll decisions.  
Silence you with knife incisions.
