Gunshot destruction, limb and tissue blown away

Annihilate with hate, exploding with rage

Shotgun damage, bones shatter and break  
Punctured lung deflate, exploding with rage

No hope, no fear. no hope, no fear  
No hope, no fear. obliterate your flesh and blood  
No hope, no fear. obliterate your flesh and blood

Kneecap shot attack, exit wounds through the back  
Devoid of breath, fucking shot to death

Obliterate your flesh and life, hungry for the damned  
Gaping wounds of pain, your mother fucking life I slay  
No hope, no fear. no hope, no fear

No hope, no fear. obliterate your flesh and blood  
No hope, no fear. obliterate your flesh and blood

No hope, no fear. no hope, no fear  
No hope, no fear. obliterate your flesh and blood  
No hope, no fear. obliterate your flesh and blood
