Magnum handle to the head, world turns black.
Unconscious state, opened cranium displays your
brain.

Fractured nose and smashed fucking cheek bones.

Pistol whipped.
Magnum handle to the head.
Lash out with intent to make you fucking dead.

Blunt force blows makes your skull explodes.
Broken jaw and swollen eyes.

Fractured nose and smashed fucking cheek bones.

Pistol whipped.
Magnum handle to the head.
Lash out with intent to make you fucking dead.

Face caves in from overdose of blows.
Disfigurement reaped from my hands.
Once human head now pummeled to death.
Blood and brains mixed in skull.

Blood and brains mixed in skull.

Face caves in from overdose of blows.
Disfigurement reaped from my hands.
Once human head now pummeled to death.

Pistol whipped.
Magnum handle to the head.
Pistol whipped.
With intent to make you fucking dead.
Pistol whipped.

Pistol whipped.
Pistol whipped.
Pistol whipped.
Pistol whipped.
