

# Killem "Cancer"

Visit "[Cancer](#)" on MotoLyrics.com

Narrow-minded king of the streets  
You are the parasite  
It is time to eradicate you  
Before the infection grows

Violence is the medicine  
To make you understand  
You're a malignant tumor  
That has to be removed

I've found the cure - The cure is death

You are the Cancer  
I am the surgeon

There is no anesthesia  
This time you'll feel the pain  
The operation time has come  
Your suffering has begun

Brutality is the vaccine,  
My hands will tear apart  
All the corrupted tissue  
Infected by your breath

I've found the cure - The cure is death

You are the Cancer  
I am the surgeon
