We said something to her  
'Cause of something she said  
And we did something to her  
'Cause of something she did  
Now kick her out she's a fucking liar  
Kick her out she ain't no fighter, like us  
She can't take it and she can't bear it  
We sure know it but we don't show it

This is how girls do it  
And this how girls talk  
And this is how girls  
Take care of their friends

This is how we are  
This is how we do  
This is how we talk  
This is me and you

And now she is alone

This is how we are  
And this is how we go too far...
