We said something to her
'Cause of something she said
And we did something to her
'Cause of something she did
Now kick her out she's a fucking liar
Kick her out she ain't no fighter, like us
She can't take it and she can't bear it
We sure know it but we don't show it

This is how girls do it
And this how girls talk
And this is how girls
Take care of their friends

This is how we are
This is how we do
This is how we talk
This is me and you

And now she is alone

This is how we are
And this is how we go too far...
