They say that your kiss is like a pill  
Designed to change the way that I feel  
For every heartache you gotta cure  
That's why I put my trust in you

Everybody's looking for what they want  
And everybody's looking for what they need  
Gotta keep on looking for what I want  
(Gotta keep on looking for what I want)

But I don't even know your name  
So I will call you medicine  
You can ease my pain

I don't wanna feel the same  
Tonight I need your medicine  
To put out the flame

I don't even know your name  
So I will call you medicine  
You can ease my pain

I don't wanna feel the same  
Tonight I need your medicine  
To put out the flame

(Medicine)  
(Running through my veins)

But I don't even know your name  
So I will call you medicine  
You can ease my pain

I don't wanna feel the same  
Tonight I need your medicine  
To put out the flame

I don't even know your name  
So I will call you medicine  
You can ease my pain

I don't wanna feel the same  
Tonight I need your medicine  
To put out the flame

Trapped in emotions, you've got me HOOKED  
The cure that you give is not in the book  
To you I'm addicted, I can't deny  
To shake you off, I won't even try

Don't even know your name  
So I will call you medicine  
You can ease my pain

I don't wanna feel the same  
Tonight I need your medicine  
Running through my veins

But I don't even know your name  
So I will call you medicine  
You can ease my pain

I don't wanna feel the same  
Tonight I need your medicine  
To put out the flame
