

## Celtic Woman "Mo Ghile Mear"

Visit "[Mo Ghile Mear](#)" on [MotoLyrics.com](#)

LÃi na mara  
LÃi na mara nÃ³ rabharta  
Guth na dtonnta a leanadh  
Guth na dtonnta a leanfad Ã³  
LÃi na mara nÃ³ lom trÃi  
LÃi na mara nÃ³ rabharta  
LÃi an ghainimh, lom trÃi  
LÃi an ghainimh

(The day of the sea  
The day of the sea or of the high tides  
To follow the voice of the waves  
I would follow the voice of the waves  
The day of the sea or the ebb tide  
The day of the sea or of the high tides  
The day of the sands, the ebb tide  
The day of the sands)

Can you feel the river run?  
Waves are dancing to the sun  
Take the tide and face the sea  
And find a way to follow me

Leave the field and leave the fire  
And find the flame of your desire  
Set your heart on this far shore  
And sing your dream to me once more

*[Chorus:]*

'SÃ© mo laoch mo ghile mear  
'SÃ© mo ShÃ©asar, gile mear  
Suan gan sÃ©an nÃ bhfuair mÃ© fÃ©in  
Ã“ chuaigh i gcÃ©in mo ghile mear

(He is my hero, my dashing darling  
He is my Caesar, dashing darling  
Rest or pleasure I did not get  
Since he went far away, my darling)  
Now the time has come to leave  
Keep the flame and still believe  
Know that love will shine through darkness  
One bright star to light the wave

*[Chorus]*

AmhrÁin na farraige  
Ár ar na seolta  
AmhrÁin na farraige  
Ag seoladh na bhfonnta...

(Song of the sea  
Gold on the sails  
Song of the sea  
Sending the melodies...)

Lift your voice and raise the sail  
Know that love will never fail  
Know that I will sing to you  
Each night as I dream of you

*[Chorus]*

Ag seinm na farraige  
Ag seinm na farraige  
(Playing the sea  
Playing the sea)

Seinn... Play...

*[Chorus]*

Gile mear, the wind and sun  
The sleep is over, dream is done  
To the west where fire sets  
To the gile mear, the day begun

*[Chorus 2x]*

Á chuaigh i gcÁin mo ghile mear  
(Since he went far away, my darling)

AmhrÁin na farraige  
Ár ar na seolta  
Ag seoladh na bhfonnta  
(Song of the sea  
Gold on the sails  
Sending the melodies)
