Walking the night without you
Skies too high without you
Losing my way on silent roads without you
Long lone streets before me
No voice in the night to warn me
No sound of our songs
To bring you to me
Losing my way
Stars send me astray
Walking the night without you
Blind in sight without you
No song I learn
No way I turn
Brings you closer to me
Searching for songs without you
Moon so cold without you
Longing to be near
Straining to hear
A song from you
Walking the stars without you
It's calling through the dark
It's reeling in the heart
The sound of the pipes on the wind
The strains of the song
Carry me along
Sending me dancing again
From above and below
A sound soft and low
And the music's flowing through me like before
And the song that we once knew
Brings me back to you
Pipes play within me once more
Your songs are in my heart
They light the dark
So come give me your hand
Now and we'll dance tonight
In the blazing light
And the years will fade away
Fade as you play
Play through the dark
Play in my heart
I'm spinning with the sound

There a drumming in the ground
And the humming of the song beneath my skin
And the world falls away
As I hear the pipes play
Sounding the song from within
From within
Your songs are in my heart
They like a dart
So come give me your hand
Now and we'll dance tonight
In the blazing light
And the years will fade away
Fade as you play
Play through the dark
Play in my heart
There's a drumming in the ground
And the humming of a sound
That we once knew
Come sing through the night
Come fill me with your light
Play a song sounding out through the years
Play it steady and strong
Fill me with song
Sending me dancing, sending me dancing
Dance as the pipes play away in my heart
Come give me your hand tonight
Your star is bright
Your songs are in my heart!
