

Killer Dwarfs

"Stand Tall (Stick To Your Guns)"

Visit "[Stand Tall \(Stick To Your Guns\)](#)" on MotoLyrics.com

The fear is paralyzing
Second gear for flight
The atmosphere is tantalizing
Savor every bite

Stand tall, stick to your guns
Might make you scared but they can't make you run
Stand tall, stick to your guns
Show them what you're made of

Take my hand, we will command
Fear nothing, no one
Speak to me, I'm hearing you
A message from the front lines

Stand tall, stick to your guns
Might make you scared but they can't make you run
Stand tall, stick to your guns
Show them what you're made of

Out of the past, our hope will last
No second best for this one
Take my hand, we will command
Fear nothing, no one

Stand tall, stick to your guns
Might make you scared but they can't make you run
Stand tall, stick to your guns
Show them what you're made of

Stand tall, stick to your guns
Might make you scared but they can't make you run
Stand tall, stick to your guns
Show them what you're made of
