(Intro) The American dream had a price tag, and only one man in a million was hungry enough to pay

(Killer Mike)

Hey man,

You can save that morality

For your minister

And you can save that speech

For the sisters of the church

This is America, Jack!

This is all about

Corporate takeovers and money makeovers

Wealth matters and poverty doesn't

We all say we love

Martin Luther King

But we all wanna live

Like Don King

Don't we?

God bless America!

God bless America!

Home of the Rockefellers

Home of the Carnegies

Home of the end justifies the means

Legitimized through larceny

Fuck the king!

Fuck your taxes!

Is what they told they masters

Before they became our masters

So rebelling against power is natural

And being an outlaw is actual
