Yeah, yeah, yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah

You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for
You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for

They say a nigger can't get a job but can get arrested
Thought shit was changing which is black for detention
My bitch got me fucked up, going to get tested
Cause while I was locked up, she was living red
Just another odd deal a real nigger got a deal with
If you want the bottom right man you gotta feel this
I know that you're frustrated and you wanna clear your
shit
Stop... weapons cause that shit may come real quick
Bomb, yeah, yeah, yeah, this motherfucker down
Yeah, yeah, yeah I will bomb this motherfucker down

You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for

They say the cop wrote a letter apologizing to Oscar
Guess they say I'm wrong cause I steal...
Police in the ghetto, they is killing niggers daily
But when we get to busting back they say that we crazy
Prison's overcrowded and school is too
Cause they under educate you and got a place for you,
yeah
Niggers go to prison, new age slavery
Now you knowing why they under educate your baby

Bomb, yeah, yeah, yeah, this motherfucker down
Yeah, yeah, yeah I will bomb this motherfucker down
You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for

They say get a job you've been thinking grow rich
But what is you to do when a dollar ain't worth shit
And the jobs I ain't hiring none employment is gone
They gonna rip all your cars pull off clothes your home
Me I suggest you get yourself a shotgun
So when they come to... you can make them run
The bank's got bail down the... suffering
So I got a gun cause I ain't got enough of them

Bomb, yeah, yeah, yeah, this motherfucker down
Yeah, yeah, yeah I will bomb this motherfucker down
You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for

They say love Jesus and listen to your pastor
But Jesus told the truth and the pastor's a lying bastard
All he talk about is economic elevation
And all Jesus talked about soul salvation
Jesus sat with the sick and He walked with the poor
If He gave blood for what's seeing why we give him
more?
I got some gangster disciples and church with me
tonight
With that... worth of gas and mask look alike

Bomb, yeah, yeah, yeah, this motherfucker down
Yeah, yeah, yeah I will bomb this motherfucker down
You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for
You and your whose me and my foes
Me and my foes... you and your whose
Never was supposed, that ever ever was for.
