That's life (that's life), I tell you I can't deny it  
I thought of quitting, baby, but my heart just ain't  
gonna buy it  
And if I didn't think it was worth one single try  
I'd jump right on a big bird and then I'd fly...

Ms. Oprah, Mr. Cosby, I am right back at your ass  
With all honor, Mr. Obama, please don't walk out so fast  
I got a question, got a question, got a question for you  
all  
Why when Oscar Grant got murdered, we didn't hear a  
peep from y'all?  
We appreciate the way you delegate for Henry Gates  
But what about your people slaving in these fields  
everyday?  
We know that House got air conditioning and the  
sweetest lemonade  
But don't forget your color, brother, we still  
motherfucking slaves  
And that even go for Puffy who so motherfucking paid  
That he's richer than these White folks or at least that's  
what he say  
That's what he say, that's what he say, and them petty  
niggas love it  
Think about it, what's a rapper standing next to Warren  
Buffett?  
Ha ha ha, now you niggas are properly enlightened  
You can disregard that sell-out shit that Jason Whitlock  
writing  
You can disregard that racist shit that Glenn Beck is  
reciting  
I'm the leader of the gang, tell them to get a mike

I was born and I was raised in the U.S.A  
And I done been around the world and back, what a  
day  
So I done seen a lot of shit and I just want to say  
That Lucifer is here to stay, so bitch, you better pray  
I was born and I was raised in the U.S.A  
And I done been around the world and back, what a  
day  
So I done seen a lot of shit and I just want to say

That Lucifer is here to stay, so bitch, that's life

What I'm touching on next, you might want to leave the kitchen

Cuz I'm touching on that touchy subject that they call religion

Kind of touchy like that religion that's touching on your children

But nobody want to talk about that, touching and feeling

On topics that they touching or talking about Jesus said  
They liars like they father and sixes is in their head  
Bishop Long, what is up with that monkey shit on your head?

Last I checked, vanity was a sin, the Lord said  
On my life, I believe you put boys off in your bed  
Though some New Birthers and Catholics ain't going to like what I just said

But before you fix your mouth and try to come with a retort

Please be advised that Jesus never took a plea in court  
And he never had a plane, and he never had a car  
And he never had a church that was visited by stars  
But he did have love for the poor and the thieves  
And he was in the street, kind of similar to me, nigga

I was born and I was raised in the U.S.A

And I done been around the world and back, what a day

So I done seen a lot of shit and I just want to say  
That Lucifer is here to stay, so bitch, you better pray  
I was born and I was raised in the U.S.A

And I done been around the world and back, what a day

So I done seen a lot of shit and I just want to say  
That Lucifer is here to stay, so bitch, that's life

Mr. Beck, Mr. O'Reilly, Mr. Limbaugh, Mr. Hannity

How could you sell white America your insanity?

You tell them that they're different and manipulate their vanity

When truthfully, financially their life is a calamity

Otherwise they would be listening to Dave Ramsey

So they're about as broke as the people that they don't want to be

Convincing them that rich Republicans is what they going to be

So they act like Ronald Reagan and like him they're awful actors

Who look up to the rich like dumb kids look up to rappers

And that's about as dumb as a donkey pulling a tractor  
Yes, that's a Democrat diss, I'm a detractor  
So whether you vote right or vote left is not a factor  
When you ain't got no care for your health, Hey, this  
America  
They going to put your ass in debt, something terrible  
So you can disrespect presidents and call them  
socialists  
But Palin and Pelosi both going to have you broke as  
shit

I was born and I was raised in the U.S.A  
And I done been around the world and back, what a  
day  
So I done seen a lot of shit and I just want to say  
That Lucifer is here to stay, so bitch, you better pray  
I was born and I was raised in the U.S.A  
And I done been around the world and back, what a  
day  
So I done seen a lot of shit and I just want to say  
That Lucifer is here to stay, so bitch, that's life
