the unknown distance  
to the great beyond  
stares back at my grieving frame  
to cast my shadow by the holy sun  
my spirit moans with a sacred pain  
and it's quiet now  
the universe is standing still

there's nothing I can say  
there's nothing we can do now  
there's nothing I can say  
there's nothing we can do now

and all that stands  
between the souls release(?)  
this temporary flesh and bone  
we know that it's over now  
I feel my faded mind  
begin to roam

every time you fall  
and every time you try  
every foolish dream  
and every compromise  
every word you spoke  
and everything you said  
everything you left me,  
rambles in my head

there's nothing I can say  
there's nothing I can do now  
there's nothing I can say  
there's nothing I can do now

up above the world so high

and everything you loved  
and every time you try  
everybody's watching  
everybody cry

stay, don't leave me

the stars can't for your sign  
don't signal now

and there's nothing I can say  
there's nothing I can do now  
there's nothing I can say  
there's nothing we can do now

goodnight, travel well  
goodnight, travel well

and there's nothing I can say  
there's nothing I can do now
