Speak to me and let us be
For you know that's how it could be

And race, cause it's all i need
And be my everything

And what you take, is always replaced
But where am i left?
With all those behind

And race, cause it's all i need
And be my everything

Would you wait there?
Fear what's ahead
Does it mean that we couldn't bear?

And race, cause it's all i need
And be my everything
And race, cause it's all i need
And be my everything
