Sit back down its never enough!
Its never gonna be the way it was, we know!

Sit back down its never enough.
It's never gonna be the way it was.
We dont know... its just because. Yeah yeah!

(Chorus)
The way you, Know I'll change
Its what you wait for!
The way you, Know I'LL Change!
Its what you wait for...

Fake that smile, its a worthy cause!

Scrawl my name across the walls! It's all you know.

Fake that smile its a worthy cause
You'd better scrawl my name across all these walls
You wanna come around? you havent got the balls!
Yeah we all know!

(Chorus)

[Bridge]

You're the reason I...
Have to move on...
You're reason I...
FALL!
