(Jesse and Ella Jesse Hooper)

You find yourself in the bathroom cupboard
Prescriptions don't matter anymore
Squeezing into your blue jeans baby
Gonna get some sooner than special

'Cause all you wanna be is here ..yeah yeah..

Where are you think you can see and feel
Climbing into your big bed hazy
The lights aren't on but you shield your eyes

It will help you dream help you bleed

One more drop sweet dreams
'Cause all you wanna be is here
Where are you think no see and feels
