I remember waiting in line  
I was waiting for the bell to ring  
I remember waiting just to hear  
My name called again  
I can feel a hand on my back in the hall  
It was summer time  
You know those feelings never left  
I feel your hand in mine

Yeah it was all I could do walking round  
With my hand in the air  
Cause it was all that I knew at the time  
Thought it was right in there

Pave the way, pave the way, the way  
Yeah you pave the way...

Nothing could ever reach the days that I spent  
On a seat in a bus

Whenever we were early  
We'd be the last to class  
Walking round like we knew everything  
But we never did  
Telling everybody trashy stories  
'bout how we get so bent

Yeah it was all I could do walking round  
With my hand in the air  
Cause it was all that I knew at the time  
Thought it was right in there

Pave the way, pave the way, the way  
Yeah you pave the way...  
Pave the way  
Fly away, pave the way  
Fly again, pave the way  
Fly away...  
Pave the way, pave the way, the way
