Do I always stress you out
and do I need to worry now
can I still come up for air?

Is it that I didn't know
or is it that I let you go
now I didn't mean to leave you there

I heard what you said
yeah I felt it in your bed
can I come up for air

Is it that I didn't know
or is it 'cause I let you go
now I didn't mean to take it there

Do I always stress you out
do I need to worry now
can I still come up for air

'Cause I heard what you said
yeah I felt it in your bed
can I still come up for air

Well i'm so sorry now
but I have more to me
yeah I try to take you down
'Cause I have more to see
well i'm so sorry now
that I have more to me

Do I always stress you out and
do I need to worry now
can I still come up for air...
