Watching the decoys of all description  
Sparkle of color creating diversion  
The liars are out, they have all the assets  
Crawling for oil, they were bleeding for gold  
Fruit tasting bitter and lead in the air  
Butcher the womb and expect her to bear

[Incomprehensible]

Forests are falling, there's smoke in my throat  
Machine over man and the mass over mind  
Re-assurance from face on my screen  
Appointment with destiny for those who will run  
Out of the virus, immunity comes  
Out of the virus, immunity comes

[Incomprehensible]
