

Killing Joke "Complications"

Visit "[Complications](#)" on MotoLyrics.com

See the sun turn green
From my penthouse window
It's different now
Because you got no shelter

Alienation
By experimentation
Enjoy yourself
This is the new age

Complication, complication
Complication, complication

Ransom the birth
Of a new destruction
It's different now
It's what we always wanted

Alienation
Self-destruct
At the count of ten

Complication, complication
Complication, complication

See the sun turn green
From my penthouse window
It's different now
Because you got no shelter

Alienation
Enjoy yourself
This is your new age

Complication, complication
Complication, complication
Complication, complication
Complication, complication
