move on - light up the way
banner and festival where the wine and plenty flow
we'll go - let's make our way
because the flame within our hearts telling us to move
towards
the feast of blaze la-la
each day - move closer to
where the noise uplifts my soul, where the "wilful" man
shall go
start here - let's make our way
and the mess the fools have made won't stop us in our
way
the feast of blaze la-la

the feast of blaze la-la
let's go - light up the way
banner and festival where the wine and plenty flow
we'll go - until that day
when the sun will shine again and then we'll all move
towards
the feast of blaze la-la
