

Killing Joke

"Night Time"

Visit "[Night Time](#)" on MotoLyrics.com

Night time turning out the sun
Countdown pulsing like a machine
Conflict, cars and people, steel on flesh
Night time desperations sweat on breath

Bloodstains, night covering the crimes
Daytime shows the face behind the mask
Show time, law and order, life and death
Runtime, a drunken time where all can lie

Come, come with me, we'll run into the night
Come, come and see, sweet madness of night

Night time, party troops and governments
Club time, lovers, riches, promises
No time, running, hiding, crying tears
It's night time and time to run from all your fears

Come, come with me, we'll run into the night
Come, come and see, sweet madness of night

Night time
Night time
Night time
Night time
