"The Fall Of Because"

Look at the faces
It's cold outside
No more passion
Passion is [Incomprehensible]

The fall of because
The fall of because
The fall of because
Because

Look at the faces
It's cold outside
Losing my fear
Staying indifferent

The fall of because
The fall of because
The fall of because
Because

Look at the faces, look
It's cold outside
No more passion
Passion is [Incomprehensible]

The fall of because
The fall of because
The fall of because
Because

[Incomprehensible]
