When we know that we have to lose something
Try to remember about we've been through
Wishing that we'll make it
And it will be ended

It's all about it's killing me
And it will always be a part of this life
When we know will be ended
It's all about it's killing me
And it will always be a part of this life
But let this song reminds our memories

Our hearts stop beating
Our minds stop thinking
I've wasted more time dreaming
When it all comes crashing
'Cause we will never made it

So let's make this worth it
And get paid for what we did
Maybe we should try
To get this fuckin' done

But how can we save it
So let's make this letter
This is not the end

We did everything together
This is what always remind me
Don't let everything go through just like that
And just let the time end it
We did everything together
This is what always remind me
Don't let everything go through just like that
And just let the time end it

Our hearts shown in this song
This is a letter about fucking the last
And we don't want
Any regret about our mistake
Our hearts shown in this song
This is a letter about fucking the last

And we don't want
Any regret about our mistake

We've tried our best
And we'll keep doing our best
We've already started it
And we're gonna finish it 'til the end
With all any reasons, I couldn't say
That will be last...
That Will be last...

It's all about it's killing me
And it will always be a part of this life
When we know will be ended
It's all about it's killing me
And it will always be a part of this life
But let this song reminds our memories

We did everything together
This is what always remind me
Don't let everything go through just like that
And just let the time end it
We did everything together
This is what always remind me
Don't let everything go through just like that
And just let the time end it
