Lyrics by ( Onadio )

Music by Josaphat

When we think about this I just cannot take it  
Everybody know that I can make it

( I just Can't wait)

( Give me some air )

We'll never give up to get the star until we're Down

Reff:

This blood will be on that way ( Together )  
You know we made something here Tonight  
This Life will be on that way ( Forever )  
This time Is Right we're moving on

Don't Give Up we can't go down  
Everybody can't take it

( I just Can't wait)

( Give me some air )

We'll never give up to get the star until we're Down

Reff:

This blood will be on that way ( Together )  
You know we made something here tonight  
This Life will be on that way ( Forever )  
This time Is Right we're moving on

I'll make it, I'll leave it now, I'll make it, I'll let this go
