

Killing The Dream

"We Were"

Visit "[We Were](#)" on MotoLyrics.com

We were like that once...when you could die of a broken
heart, and just one smile could fix it all.
we'd get back up when we'd fall.
and we believed the songs we sang.
we knew everything...
except that it would end,
at least the way we knew.
I've never known it more than i do now.
And we would never be like this.
We believed in forever, because we still had it.
Somehow it got lost along the way.
We had things that we lived for, and we'd die for even
more.
we're not colder now...just a little older.
And we can't go back,
I just I would have known.
