I'd tear my heart out for you
Cross a mountain for you
I'd give myself up for your sin
Open up, I'm falling in

Chorus:
What I feel
What I give
Take from me
What I am
It's the last day of you

I watched the last day of you
A lot has passed, I told you

The world surrounding us has gone
The world surrounding us goes on

Chorus (x2)

Feel my hands upon you
To feel my last touch of you
You feel my breath across your skin
Let go of all you hold within

Chorus (x2)
