(Verse)

The sound of footsteps approaching
A storm of shadows reveal a figure from line
Whispering voices that shiver
Into our ears as temptation
Sings it begins I still flow

Under the skin, the road begins to grow
Rest to the heart, speaking from the soul
Come face to face with all you asking
Will you hold your breath and turn away

(Chorus)

Release her inhibitions
And answer to the call

(Verse)

The search of death will reveal our true image
Salvation takes us into the unknown

The run, inflict us in the rain
Feel with the end the end
Intentions of the shallow
Under the illusion left from confrontation
Although we know the test will come

(Chorus)

Release her inhibitions
And answer to the call
Leave behind this shell of flesh and bone
In the end we will answer to the call

(Bridge)

Everybody's question remains
How much is too much to give
Do your wings have the strength to carry on
When we see redemption
How long will we wait
For deliverance
It takes everything to keep from falling down

(Chorus)

Release her inhibitions

And answer to the call

Leave behind this shell of flesh and bone

In the end we will answer to the call
