"Lean Like A Cholo"

All the homies they know what I mean  
Baby let me show how I lean (Like A Cholo)  
lay back bounce in the cut  
when we do our dance and we do it like what? (Like A  
Cholo)  
side to side  
elbows up side to side  
elbows up side to side  
el-elbows up si-side to side

(verse 1)

all up in the club, Ten Deep  
lookin' for so hynas, we on da creep  
I need a bad one, a real freak  
find 'em on the dancefloor so don't sleep  
damn!, I like you, I like you, but I really want her  
she's that type I can tell  
let me get in too deep, take her back to the hotel  
but right now I'm gonna move  
show this little mama how a gangsta groove  
I don't do a whole lot, just enough  
lean side to side keep my elbows up  
like this and like that  
all the girls know where the real G's at  
you can find us way up in the back  
watchin' that ass bounce like a low low

I Lean Like A Cholo  
side to side elbows up side to side  
elbows up side to side  
el-elbows up si-side to side  
I Lean Like A Cholo  
side to side elbows up side to side  
elbows up side to side

el-elbows up si-side to side
