Love is worthless vomit, rotten and putrified, tastes like
a bloody
Excrement which existence is less than human urinal. All
feelings suffocate
With a sudden ignition in chaos, about the beginning of
lunacy, wet pussy,
Minced pussy; when available makes sadistic repressed
feelings always with
Me. True way to show your life is pissing of diarrhoeatic
bloody orgasm.
Impertinent prostitute, sardonic woe saunter, pour out
your vaginal liquid
With a squeal. Your ripen fucker gives no chance to
probation, he only
Follows the procedure and gathers his ghastly
fury. Forsake his mind
Otherwise with the emancipation of dark thoughts, the
emotion of the most
Horrifying one will embrace your drabby body like a
sharp vibrator which
Penetrates erotic holes other than known. Drama of
your weep will come an
End faster the injection through your ears indirectly your
brain. You'll
Shriek in desperation, you'll be fearfully
perturbed. Inspect your body if
You have lost any part of it. Benumbed shredded lustily,
no induction is
Passible medically. Your fool badtor cries, he also
mourns because of
Impossibility for fucking whereas your precious fucker
has already found a
Vagina. You know?
