I'd like to live out all my dreams
And if I could, yes if I could
The nicest one would be with you
And you'd be here with me
Don't you ever get lonely

Lord I'm no good when your away
But what do you expect
From a girl who loves you like I love you?
Won't you ever just get tired and come on home to me?
Won't you ever get lonely?

You're a part of me that I can't do without
You're a part of me that dreams are all about
But you can't hold on to something that you've never
had before
Love waits for the wind to bring you back again

Friend say, "Its great now you're a star"
But what do they expect from a girl who loved you just
the way you were?
And late at night, how I wish things had never changed
And you were here with me
Don't you ever get lonely?

You're a part of me that I can't do without
You're a part of me that dreams are all about
But you can't hold on to something that you've never
had before
Love waits for the wind to bring you back again
And take me away

Take me away
Take me away
Take me away
Oh take me away
And take me away
Oh take me away
And take me away
Oh take me away
And take me away
