[Lyrics: Schulman]

Lost love beyond fallen sorrow  
See the black dawn rise  
We fell in ecstasy  
Turning the mist into shadows  
In pain I see the falling raindrops  
As they sweep my naked flesh

In pain -  
I dwell  
My love -  
Dream those endless dreams  
Beyond the withering beauty  
The moon will shine  
red and bright  
Carried by the golden wings  
In pain I see the love fade

I can turn the sky to ever black  
Roses fade in silent halls  
As the snow covers the trees  
Freeze the fear and promises

At the gates of the ancient light  
Unblessed darkness burning still  
In hell I will touch my soul  
Thy my kingdom  
has risen with pride

Cold scars and blackened rivers  
The red sea echoes your name  
You have sealed your wounds  
The flowers slowly decay  
In pain I see the falling rain drops  
As they cover my naked flesh

At the gates of teh ancient light  
Unblessed darkness burning still  
Frozen tears in frozen eyes  
Here I stand at the dawn of lies

Lead me into the Autumn years  
Then the shades  
shall dance before me
