Visit "[The Destroyer](#)" on MotoLyrics.com

We are diving into the deepest abyss known to man
It is time to reveal the truth of all the obscure
Unable to wake up from your everlasting nightmare
Armageddon is coming closer, soon we will die but
until we do...

Turn to hate - Make them our enemies
The beast of Hades - Dwells inside of me

I praise the destruction, the human race will never be
free
Spending our lives searching, ending up in caskets
anyway
I will tear your world apart, nothing left to save
This is the final offer, there is no turning back at all

Riding on the crystal sky fed by the hellbound fire
Victimized since the day of birth, (the) destroyer will
tear apart the earth
