i'm sittin' in my room and waitin'for you to come,  
but sometimes things are getting worse  
and you are always wrong  
you reached in every pore, in every nerve and fibre  
i never tasted love like this before

down on this side - and i shouldn't do the same  
down on this side - and i shouldn't do the same

i was gettin? more than every boy, waitin'for you,  
so easily  
i liked the talks, i'll always remember  
i never wanted something else  
down on this side - and i shouldn't do the same  
down on this side - and i shouldn't do the same  
down on this side - no i shouldn't do the same  
down on this side - no i shouldn't do the same

i complained, you shouldn't do, but you did...

down on this side - and i shouldn't do the same  
down on this side - and i shouldn't do the same  
down on this side - no i shouldn't do the same  
down on this side - no i shouldn't do the same
