[Verse One]

Everybody got excuses which are useless  
My niggas scientific died what about they sons and  
they futures  
Niggas don't fight yo they shoot you  
Now everybody think they hot like the gear that's stolen  
by our boosters  
Not a thug but got thug tendencies  
For rappers and enemies  
Half pint of Hennessy  
Stand on my own with legs like a centipede  
Jumping out your car with ??? smelling like the scent of  
weed  
While haters want to see us bleed  
But my crew got mouths to feed  
Y'all remain in court with a case to plead  
Supporting cast, MIA won't take the lead  
Not for fame or the greed  
Get the fertile soil, lay it down, go ahead plant the seed  
Throw up a three but I still give more  
Cuz' ED O.G. has got a lot to live for

[Chorus]

Yo I got to much to live for  
Yo I got to much to live for  
I said I got to much to live for  
Yo I got to much to live for

[Verse Two]

Some niggas scared to die but are scared of living  
All the dirt that I did God is very forgiving  
With the sharks I'm swimming, for the cake and the  
trimming  
Get possessed by life, money, drugs and women  
Striaight ahead dog with no stops kid  
Don't want to get shot in my back like my pops did  
Too many questions and not enough answers  
Life's about chances, major labels and big advances  
What I saw in my life will make the sofest nigga harden  
Plus I keep it moving like Osama Bin Laden  
Cuz' I got to give more

ED O.G. got a lot to live for

[Chorus]

Yo I got to much to live for  
Yo I got to much to live for  
I said I got to much to live for  
Yo I got to much to live for

[Verse Three]

Look at this mess we in  
Surrounded by a gang of sneaky thespians  
With madd L's and no wins  
If it ain't floss related, incarcerated  
It quickly faded, or hardly ever made it  
I ain't the one to hate it, to many imperfections  
One of the few exceptions to stay hard like an erection  
Ninety-nine new elections, by two thousand no more  
public housing  
What you going rap about?  
If I talk it, I'll back it up  
You niggas need to stop rapping and wrap it up  
I'm just trying to kick vocals, live amongst the locals  
Refrain from the beefin' and the choke-holds  
If you don't know me ain't a damn thing you could show  
me  
I still keep it real with my homies  
Yo, throw up the three but I still give more  
Cuz' ED O.G got a lot to live for

[Chorus]

Yo I got to much to live for  
Yo I got to much to live for  
I said I got to much to live for  
Yo I got to much to live for

RIP  
Scientific LD  
Uh, yeah  
And my nigga Black  
Coming back  
What  
Everbody on the boat  
Humboat that is  
What  
RIP, keep living  
It's all about living
