Dream that we walked by the waters edge
Again your love tasted sweet
The sun came and melted us away one day
Rain drops they fall on me I yell, get off my lawn
You maybe, you wanna be I wanna get back what's
gone
Get back what's gone
Everything that she brings
Get back what's gone
Come on and be my anything
I wanna get back what's gone
Two minus me is you
Tell me, how are you enjoying the view
How do you like walking home at night alone
Am I getting through to you
Was is ho hum and yawn
I need something more than me
I need to get back what's gone
Get back what's gone
Give me that everything that she brings
Get back what's gone
Come on and be my everything
Get back what's gone
Oh I wanna talk to you in the night
When I said, it was time that I moved on
Rain drops were falling Get off my lawn
