Trust me, love me
I can do no wrong
Miles apart
But still i know where i belong

Time will tell
Exactly how we feel
Days go by and
Yet I know this love is real

Cause I live in your eyes
I feel close, to you
Cause I live in your eyes
I can see it's true

The one I breathe
The one I live
I can't think about life
Without you now
The one I need
The one I hold
Can't imagine my life without you now

The one I breathe
The one I live
I can't think about life
Without you now

Feels so right

Counting down the
Days 'til I'm with you
Missing hurts when
Love's so strong it makes me blue

When you call and
Say you're missing me
It concludes this
Chapter of our love story

The one I breath

The one I live
I can't think about life
Without you now
The one I need
The one I hold
Can't imagine my life without you now

The one I breath
The one I live
I can't think about life
Without you now

Cause I live in your eyes
I feel close, to, you
Cause I live in your eyes
I can see it's...

The one I breath
The one I live
I can't think about life
Without you now
The one I need
The one I hold
Can't imagine my life without you now

The one I breath
The one I live
I can't think about life
Without you now

Trust me, love me
I can do no wrong
Time will tell
Exactly how we feel

Counting down the
Days 'til I'm with you
It concludes this
Chapter of our love story
