Drivin' around in the city  
You're runnin' through my veins  
All I want is to have the lust  
Have the trust and peace of mind  
But all I ever seem to get is 7 days of rain  
Let me be your candy coating  
Melt me in your mouth  
I've been drivin' north all day  
You've been drivin' south  
(Course)  
Give me a try  
I will pick up all your pieces  
I'll write your name in the sky  
Give me a try  
I'll do whatever pleases  
I'm chasing clouds  
And I'm bringing you back...  
I'm bringing you back your rainbow  
Bringing you back your rainbow  
Ohhh What a messy break up  
I can take you away  
Too many years of bad luck and you tried and tried  
again  
And your little life went spinin' down the drain  
Let's take a long drive just you and me  
You'll never have to smoke  
Cause I'll be your nicotine  
(Course)  
Give me a try  
I will pick up all your pieces  
I'll write your name in the sky  
Give me a try  
I will do whatever pleases  
I'm chasing clouds  
I'll bring you back...  
I'll bring you back your rainbow  
Give me a try  
I'll pick up all the pieces  
I'll write your name in the sky  
Give me a try  
I'll do whatever pleases

I'm chasing clouds  
And I'll bring you back...  
I'll bring you back your rainbow  
Bring you back your rainbow  
Mmmm  
Let me be your candy coating  
Melt me in your mouth  
I've been drivin' north all day  
You've been drivin' south  
Give me a try  
I'll pick up all your pieces  
I'll write your name in the sky  
Give me a try  
I'll do whatever pleases  
I'm chasing clouds  
And I'll bring you back...  
I'm bringing you back your rainbow 2x  
Bring you back your rainbow 3x
