rumour has it you used to be one  
are you really one?  
right before my eyes you defy the rumour  
rumour has it you used to be one  
are you really one?  
right before my eyes you defy the rumour  
don't give me those silent stares now  
i'm your brave one  
i'll be brave

rumour has it i'm not the first one  
but i'm your number one  
when i got a will now i got a way now  
don't give me those silent stares now  
i'm your brave one  
i'll be brave  
i'm your hope, yield & caution  
i'm your brave one  
i'll be brave
