Come with me, from a place they call reality
Come with me, neither up nor down, it's a special light
you see
Come with me, we can sacrifice this life to make it real

Come with me, to place I call reality
Come with me, now I have no fantasy words from this
baby
Come with me; are you ready to explode to make it
real?

If I could bring you to my home
I wish you'd come I know you'd want
I'm gonna bring you to my home

Come with me,
Come with me,
Come with me,
Come with me,
Come with me! Oh baby!
Oh baby! Oh baby
!f
If I could bring you to my arms
I wish you'd come I know you'd want
I'm gonna bring you to my home
