Who knew everything you'd been through  
Let me in, let life begin and maybe I'll save you  
A heart will heal when you give it some time  
Allow me to be your peace of mind

#### CHORUS

And Break Down and let me love you  
Break Down I thought I told you  
Break Down I thought you knew  
Break Down yeah

Tell me baby where you go  
When you're alone inside your head, I wanna know

I'll show you I'm compassionate  
You haven't seen the best of me yet

#### REPEAT CHORUS

So really, well what else can I do  
To show you I'm ready for the challenge of you  
I've said most, most everything that I can say  
I can't put it any other way

#### SOLO

#### CHORUS 2x
