Hello old friend, aww, this is so like you  
To drop back in, well, you were right on time.  
How have I been? Well, that can of worms ain't worth  
opening, Leave it at "fine," just fine  
Ooo oo oo ooo ahhhh, I'm just fine

So how 'bout you? Yeah, how 'bout those big dreams?  
Did some come true according to plan?  
Are you married yet? Huh, I thought you would be by  
now  
I forget, what was her name, ahhh, what was her  
name?  
Ooo oo oo ooo ahhhh, good old what's-her-name

And is it me you want, or are you just lonely, well aren't  
we all  
And I like the way you sound straight out of lost and  
found  
Glad you called

Well, you made me smile, hell I laughed right out loud  
And it's been a while, and it feels real good  
You know what I'd wish, were I the wishing kind?  
That you'd take a trip down to my neighborhood,  
ahhhh, my neighborhood  
Ooo oo oo ooo, yeah, come on down to my  
neighborhood

And is it me you want, or are you just lonely, well aren't  
we all  
And I like the way you sound straight out of lost and  
found  
Glad you called
