Save me a place away from all the other clutter  
In the back of your mind  
Somewhere safe, where distance and the tears won't  
matter  
Don't leave me behind

Wherever you go forever  
Keep me, yeah, keep me

Don't say a word we took a vow unspoken  
Thicker than blood  
Forget the hurt and every promise bent or broken  
What's left is more than enough

Wherever you go forever  
Keep me, keep me  
Close to your heart never let me go

In every wind lifts a prayer above a whisper  
Turns you around  
In everything that makes you laugh out loud  
For no good reason that's where I'll be found

Wherever you go forever  
Keep me, keep me  
Keep me, keep me  
Keep me, keep me, keep me
